# Software/Hardware Requirements and Recommendations

## Supported Operating Systems:

- Windows 10 Professional

## Computer Hardware Specifications:

|  | Minimum | Recommended |
|---|---|---|
| Processor | 3.1 GHz | Intel i3 3.7 GHz |
| Memory (RAM) | 4 GB DDR3 | 8 GB DDR3 |
| Optical Drive | CD-Drive | DVD-RW |
| Hard Drive Capacity | 120 GB | 250 GB Solid State Drive |
| Network | Wired 100 MHz LAN | Wired 1 GHz LAN |

Server Computer Requirements for Technical Support

Processor Requirements| Rating:

We recommend that your computer's processor have a Benchmark rating of 2500 or more. To find out your processor's benchmark rating, please visit: www.cpubenchmark.net .

**Note: Due to slower performance, we DO NOT recommend buying a computer with an AMD A or AMD E series processor.**

High Speed Internet Connection (Recommended):

Minimum Browsing Requirements - The computer will need to be able access the website www.sagesystem.com for Sage Technical Support purposes.

Network Device and Cabling Recommendations for Technical Support:

Network Device & Cabling:

We recommend using a Gigabit network switch (1 gigabit per second), along with hardwired CAT6 or CAT5e cabling connections for all computer stations.

**Note: Sage does not support wireless network connections.**
