Software/Hardware Requirements and Recommendations

Supported Operating Systems:

- Windows 10 Professional
- Windows 11 Professional

Computer Hardware Specifications:

	Bay Computer / Tablets*	Server/Central (Desktop)	Central Office (Rack Mountable Option)
Processor	Intel Core i5-7300U CPU @ 2.60GHz, 2C/4T	Intel Core i7-8650U CPU @ 1.90GHz, 4C/8T	Intel Xeon E-2274G @ 4.0GHz, 4C/8T
Memory (RAM)	8 GB RAM	16 GB RAM	32 GB RAM
Optical Drive	DVD-RW	DVD-RW	DVD-RW
Hard Drive Capacity	500 GB HDD	500 GB HDD	(2x) 500 GB SSD RAID 0 recommended)
Network	Wired 1 GHz LAN	Wired 1 GHz LAN	Wired 1 GHz LAN

*MUST be a Windows OS Tablet.

Server Computer Requirements for Technical Support

Processor Requirements| Rating:

We recommend that your computer's processor have a Benchmark rating of 4000 or more. To find out your processor's benchmark rating, please visit: www.cpubenchmark.net .

Note: Due to slower performance, we DO NOT recommend buying a computer with an AMD A or AMD E series processor.

High Speed Internet Connection (Recommended):

Network Device and Cabling Recommendations for Technical Support:

Network Device & Cabling:

We recommend using a Gigabit network switch (1 gigabit per second), along with hardwired CAT6 or CAT5e cabling connections for all computer stations.

Note: eLube does not support wireless network connections.
